THE COLLEGE...

Poojya Swami Ramanand Teerth established "Nanded Education Society" in 1950 for catalyzing educational revolution in backward region of this Marathwada. N.E.S. Science College, a single faculty college of Nanded Education Society is one of the premier institution imparting quality education to the students of this region since last 67 years. Swamiji in his vision of society emphasized the incorporation of spirit of enlightened and responsible citizenship in youth, essential for secular democratic India. The college is always poised to offer emerging contemporary education to the learners to fulfill the need of society as well as to meet global challenges. This institution has been on the forefront in pursuit of academic excellence and has attended potential for excellence (CPE) status from UGC. The college is DST-FIST sponsored and recently awarded as "BEST COLLEGE AWARD" by Swami Ramanand Teerth Marathwada University, Nanded.

Avishkar Research Festival

- ▶ The University conducts the Avishkar Research Festival every year at three stages, i. e. at College, District, and University Level for participation in State Level.
- ▶ In this festival one has to present an innovative research, which has either direct relevance to the society or the findings can be an immediate alternative to the present state of the art.
- ▶ The traditional kind of research is usually not considered in Avishkar Research Festival.
- ▶ The candidates selected at the college/campus school level will be eligible to district level Avishkar and district level winners will be eligible for University Level Competition and the winners of the University Level competition will be participating in the state level Avishkar.
- ▶ There are 4 levels and 6 disciplines, candidate of any discipline can participate in any discipline.
- ▶ The 4 levels are:
 - a) Undergraduate-(UG), Age Limit Up to 25 years
 - b) Post graduate-(PG), Age limit Up to 30 years
 - c) M. Phil/ Ph. D. -(PPG) (Students pursuing M. Phil/ Ph. D.), No Age limit
 - d) Teachers-(TH), No Age limit, pursuing their M.Phil/ Ph.D.(teachers who have already completed M. Phil/ Ph.D are not eligible for Avishkar participation, however they can guide to the students)
- ▶ The 6 disciplines are as follows
 - I. Humanities, Languages, Fine Arts (Social Sciences, Education, Languages, Fine Arts etc)
 - II. Commerce, Management, Law
 - III. Pure Sciences (Physical Sciences, Life Sciences, Home Sciences etc)
 - IV. Engineering & Technology
 - V. Medicine & Pharmacy
 - VI. Agriculture & Animal Husbandry
- ▶ Each college can send 2 entries from each discipline, i. e. 4x2=8 entries from different levels to the district level Avishkar.
- ▶ In one entry maximum 2 participants can jointly present the research presentation.
- ▶ College/campus school can depute a faculty along with the group of participants.

- ▶ Only bona-fide, full time student, who is enrolled under S R T M University, Nanded for a UG / PG degree / PG diploma / M.Phil. / Ph.D. program will be eligible. However, Students enrolled in correspondence course in Institute / Sub-Centre of University, casual students, external students and students pursuing bridge courses and students having provisional admission are not eligible.
- ▶ Incomplete registration forms will not be accepted for the competition. District level entries should be mailed to the respective district coordinator and copy shared to avishkar.apds@srtmun.ac.in
- ▶ Reporting time: 9:00 AM of the scheduled date.
- ▶ Display of posters/models by all participants between 9:30 AM - 10:30 AM.

Guidelines for Participants

- ▶ Project presentation can be in the form of Live Demonstration/Models /Posters & should be based on innovative ideas in any of the given disciplines.
- ▶ An abstract in maximum 200 words (A4 paper, Times New Roman, 12 size) including aims, objectives, methodology, findings etc. should accompany each entry. Prefer MS Word file formats to submit without any passwords.
- ▶ Maximum number of participants representing each Poster/Model is restricted to two only.
- ▶ Participants must participate with entry form forwarded by their respective college/campus school
- ▶ Participants must carry his/her Identity Card with him/her.
- ▶ In the first round, all contestants are expected to display & present orally their posters (size 1m x 1m) and models before a panel of judges appointed for the purpose.
- ▶ Each participant will be provided with specific entry code from the concerned discipline. Therefore, the participant is strictly instructed to avoid the personal names, college names or any other identity mark on the poster/models.
- ▶ The participants are also instructed to introduce to the panel of judges with his code only and not referring the college or personal names or even showing the identity cards.
- ▶ Selected projects from the first round will have to give Oral/ Power Point Presentation before the panel of judges if required. Selected teams will be given 8 minutes for presentation and 2 minutes for question and answer.
- ▶ All required basic infrastructural facilities like working space, electricity, water, tables, LCD projectors etc. will be made available.
- ▶ The decision of the panel of judges will be final and binding to all the participants.
- ▶ All winning teams at each stage will be informed about their selection to participate in the next stage of Avishkar.
- ▶ Every participant will be provided with certificate of participation at every stage of Event
- ▶ **There is no registration fee** for participation in the event.

Judgement and Prizes

- i. There will be a panel of three judges for each discipline.
- ii. All successful awardees of University level Avishkar will be awarded with certificate of merit and trophy

AVISHKAR 2023

His Excellency, the then Governor of Maharashtra has initiated a novel inter University research project competition named Avishkar in the year 2006. This activity is unique in its nature. नांदेड एज्युकेशन सोसायटी संचलित सायन्स कॉलेज, नांदेड हे मराठवाड्यातील उज्ज्वल परंपरा असणारे व गुणवत्ता देणारे महाविद्यालय आहे. महाविद्यालयाची स्थापना हैद्राबाद मुक्तीसंग्रामाचे प्रणेते पूज्य स्वामी रामानंद तीर्थ यांनी १९५० साली केली. या महाविद्यालयाला तीन वेळेस नॅक अ मानांकन मिळाले आहे. महाविद्यालयात ११ वी पासुन विद्यावाचस्पती (पीएच.डी.) पर्यंतचे शिक्षण दिले जाते. महाविद्यालयाचे अनेक माजी विद्यार्थी विविध क्षेत्रात उच्च पदावर कार्यरत आहेत. स्वामी रामानंद तीर्थानी हैद्राबाद मुक्ती संग्राम यशस्वी केल्यानंतर ग्रामीण भागात उच्च शिक्षणाची सोय व्हावी म्हणुन नांदेड एज्युकेशन सोसायटीची स्थापना केली. या संस्थेच्या वतीने नांदेड येथे पीपल्स हायस्कूल, पीपल्स कॉलेज आणि सायन्स कॉलेज चालविण्यात येते. नांदेड एज्युकेशन सोसायटी संचलित सायन्स कॉलेजच्या वतीने मागील ५६ वर्षापासुन ब्रम्हीभूत स्वामी रामानंद तीर्थ राज्यस्तरीय महाविद्यालयीन वादविवाद स्पर्धा आयोजित करण्यात येत आहे.

‘वादविवाद’ ही एखाद्या विषयावर दोन्ही बाजुने चर्चा करुन योग्य निर्णय घेण्यासाठीची प्राचीन भारतातील अमूल्य अशी विद्या आहे. भारतीय लोकशाही प्रगल्भ करण्यात पक्ष-प्रतिपक्ष दोन्हीची भूमिका जशी महत्वाची असते, त्याचप्रमाणे विद्यार्थ्यांना आपले दैनंदिन जीवन जगत असताना एखाद्या गोष्टीकडे दोन्ही बाजुने पाहण्याचा दृष्टीकोन निर्माण व्हावा व इतरांचेही म्हणणे ऐकुण घेवून साधक-बाधक चर्चा करुन योग्य निर्णयापर्यंत पोहचण्यासाठी अशा स्पर्धेमधुन मदत व्हावी, हा या स्पर्धेमार्गचा उद्देश आहे. एखाद्या विषयावर व्यक्त होण्यासाठी पुरेसे वाचन आणि सुक्ष्म निरीक्षण क्षमता असणे आवश्यक असते. ते विद्यार्थ्यांमध्ये वृद्धिंगत व्हावे व त्यांनी आपल्या अवतीभोवती घडणाऱ्या विविध घटनांबद्दल अभ्यास करुन व्यक्त व्हावे. या उद्देशाने दरवर्षी आमचे महाविद्यालय या स्पर्धेचे आयोजन करीत असते. आपणही या स्पर्धेत आपल्या विद्यार्थ्यांचा संघ पाठवून त्यांच्या विचार व अभिव्यक्ती प्रक्रियेला मोकळे आकाश निर्माण करुन द्यावे, ही विनंती.

धन्यवाद...!

About the College:

Poojya Swami Ramanand Teerth established "Nanded Education Society" in 1950 for catalyzing educational revolution in backward region of Marathwada. N.E.S. Science College Nanded is one of the premier institutes of this region. It is single faculty college imparting quality education to students of this region since last 67 years. The college is always ready to offer emerging contemporary education to learners to fulfill needs of society as well as to meet global challenges. This institution has been on the forefront in pursuit of academic excellence; reaccredited with A grade by NAAC with 3.38 CGPA and received College with Potential for Excellence (CPE) status from UGC. The college received DST-FIST programme and recently awarded as best college award by Swami Ramanand Teerth Marathwada University Nanded.

About WARSA Society:

WARSA: Ethnic Knowledge Heritage Society is registered NGO working for Tribal and Rural Communities.

Our Traditional / ethnic knowledge is vast, touching every angle of life. Main objectives of the society are to create awareness about this knowledge, its documentation and to provide research based strong foundation to our activities. Cultivation of medicinal plants, their standardization, authentication of traditional health practices and to make efforts to provide authorized certification to the traditional healers is our aim.

Another rich area of our traditional culture is wild edibles. Creating awareness about their uses, nutritional evaluation of these edibles and their cultivation is important objective.

All these activities will be carried out in collaboration with Government, Non Government organizations, colleges, registered and private limited related companies. All executive members of the society are botanists working on different aspects of the subject related to aims and objectives of the society.

About Botany Department:

The department has adequate infrastructure with spacious laboratories; research laboratory cum plant disease clinic. Department has well established Botanical garden, medicinal plant garden and Green House for maintenance of some endangered plants, museum enriched with many rare specimens. Sixty four students of the department awarded Ph.D., more than 350 research papers published so far. Presently seven research guides are supervising twenty students for their Ph.D. degree. Tradition of Gold Medals and merits from the university is maintained every year. Significant number of major and minor research projects are completed by the faculties of the department. Department runs four post graduate programs out of which PG innovative program 'M.Sc. Herbal Medicine' is one funded by UGC, New Delhi.

Objectives of Workshop

- To develop interest in medicinal plant research.
- To train the faculties and research students for identification of medicinal plants.
- To develop awareness about cultivation practices of medicinal plant.
- To know the importance of authentication of medicinal plants.
- To awareness about conservation of medicinal plants.

Report of the Workshop

The process of the workshop is started with the motivation that the post graduate students studying in our region must become renowned scientist and academicians in the field of science and engineering.

The workshop started with the inauguration on 6th February in gracious presence of Dr. Venkateshji Kabde, Chairman, Nanded Education Society, Nanded, Honorable Prof. S. M. Jogdand, M.C. member, SRTM University, Nanded, Prof. D. D. Pawar, Director, School of Mathematical Sciences, SRTMU Nanded, and Principal of our college Dr. D. U. Gawai.

Friends during the last six days we experienced fruitful deliberations in 22 academic sessions in which invited talks have been delivered by eminent personalities.

Dr. D. D. Pawar, S.R.T.M. University, Nanded. Dr. Sachin Ballal, Central University of Hyderabad, Hyderabad. Dr. Amol D. Khandagale, Dr Babasaheb Ambedkar Marathwada University, Aurangabad. Dr Nitin S. Darkunde, SRTM University, Nanded. Dr Mrs. J. D. Thenge, PAH Solapur University, Solapur. Dr. Bridgemohan Dayama, Dayanand Commerce college, Latur, Maharashtra. Mr Sandip Kage, Gondwana University, Gadchiroli. Dr Rahul Mapari, Government Vidharba Institute of Science, Amravathi. These experts in these six days highlighted the basic and advanced concepts in Mathematics subject which are in the syllabus of SET/ NET/ GATE examinations conducted by various agencies. They have given not only theoretical lectures but also practical knowledge of problem solving with suitable examples.

There are 52 participants from all over the Maharashtra state. I feel that this event will be beneficial to inspire and develop the competitive attitude among the students and teachers. I am sure that the discussion of the workshop will definitely encourage the mathematics students toward proper study and students will pass the SET/ NET/ GATE examinations. Hence I hope, the objectives of the workshop are achieved at some extent.

Recommendations

1. Workshop should be organized in future of same type, so that students, young researchers will refresh their knowledge.
2. Long duration workshop should be arranged.
3. More lectures should be arranged on all topics.
4. Mathematics should be made easy rather than being treated as a difficult subject.
5. Workshop on SET/NET paper I should be arranged.

मुंबई, दि. १४ : येथील सायन्स कॉलेजमध्ये दि. ६ ते ११ फेब्रुवारी दरम्यान गणित विभागातर्फे नेट/सेट/गेट परीक्षेच्या तयारीसाठी कार्यशाळा संपन्न झाली.

या कार्यशाळेत गणित विषयात नेट/सेट परीक्षा कशाप्रकारे घेतली जाते, कोणत्या प्रकारचे प्रश्न विचारात व ते कसे सोडवायचे, याचे कौशल्य परीक्षार्थींमध्ये रुजवण्यात आले. या वर्क शॉपमध्ये अनेक विद्यापीठातील नामवंत प्राध्यापकांचे मार्गदर्शन लाभले. उद्घाटन समारंभाला स्वा. रा. ती. म. विद्यापीठातील डॉ. डी. डी. पवार व विद्यापीठ व्यवस्थापन समितीचे सदस्य डॉ. एस. एम. जोगदंड हे प्रमुख पाहुणे म्हणून उपस्थित होते.

कार्यक्रमाचे उद्घाटक व अध्यक्ष डॉ. व्यंकटेश कावडे हे होते. अध्यक्षीय समारोपात डॉ. कावडे यांनी गणितातील प्रश्न सोडवण्याचे कौशल्य कळले तर गणितातील सौंदर्याची कल्पना आपल्याला लक्षात येते व आपण कुठे प्रश्न सोडवण्यात गढून जातो असे म्हटले. या कार्यशाळेत डॉ. सचिन बल्लाळ (हैद्राबाद विद्यापीठ), डॉ. अमोल खंडागळे (डॉ. बा. आं.म. विद्यापीठ, औरंगाबाद), डॉ. ब्रिजमोहन दायमा (लातूर), डॉ. ज्योती माशाळे (सोलापूर विद्यापीठ), डॉ. रूपाली जैन (नांदेड विद्यापीठ), डॉ. नितीन दारकुंडे (नांदेड विद्यापीठ), प्रा. संदीप कामे (गोंडवाना विद्यापीठ), प्रा. राहुल मापारी (अमरावती), डॉ. अशोक मस्के इत्यादी नामांकित तज्ञ प्राध्यापकांनी मार्गदर्शन केले.

समारोपीय डॉ. नितीन दारकुंडे यांनी मार्गदर्शन केले. या कार्यशाळेचा पुरेपुर उपयोग विद्यार्थ्यांनी घेतला. नेट/सेट परीक्षेत मोठ्या संख्येने उत्तीर्ण होणे ही गणित विभागाची परंपरा आहे. त्यादृष्टीने या कार्यशाळेला विशेष महत्त्व आहे. प्रा. पाहुण्यांनी नेट/सेट परीक्षेसाठी आढावा घेतला व मुल शुभेच्छा दिल्या.

कार्यशाळेचे प्रास्ताविक प्रशांत सुतकर यांनी केले. सूत्रसंचालन प्रा. पी. अ. कुलकर्णी यांनी केले तर आभार के. आर. गायकवाड यांनी मानले. ही कार्यशाळा यशस्वी करण्यास आर्गनाईझिंग सेक्रेटरी प्रा. पी. सुतकर यांनी परिश्रम घेतले.

ONE DAY WORKSHOP

ON

(Life Skills, Yoga and Meditation)

Sri. Sri. Ravi Shankar Art of Living Centre Nanded and Science College jointly organized “**One Day Workshop on Health and Happiness**”.

Shri. Shiva Birkale, Youth and Sri Sri Yoga Zonal Co-ordinator, 'Art of Living' guided on this occasion:

He talked on clarity of thoughts needed for decision making and concentration which is required to improve productivity of youths. In his opinion, soft skills and life skills are helpful to know your abilities, acquire a value-education, and train your mind to focus. It is also necessary for learning how to overcome your problems, stop overthinking, and feel the present. He also guided students to train their minds for challenging situations like job interviews and important presentations. He interacted with students and, through various games, conveyed his message successfully.

ABOUT COLLEGE

Poojya Swami Ramanand Teerth established "Nanded Education Society" in 1950 for catalyzing educational revolution in backward region of Marathwada. Science College is one of the premier institute of this region. It is single faculty college imparting quality education to the students of this region since last 70 years. The college is always ready to offer emerging contemporary education to the learners to fulfill the need of society as well as to meet global challenges. This institution has been on the forefront in pursuit of academic excellence, Reaccredited with 'A' grade by NAAC with CGPA 3.38 and received college with potential for excellence (CPE) status from UGC. The college is under DST-FIST programme and recently awarded as Best College Award by Swami Ramanand Teerth Marathwada University, Nanded.

About Research centre

We have university recognized research centers in Botany, Mathematics, Chemistry, Physics and Zoology. Presently 110 research scholars presently pursuing their research work for Ph.D. Institution provides excellent facility with well equipped research laboratories at PG departments. College has also extended research facility to 34 research guides from different institutes of our university jurisdiction. From the inception, more than 180 students received Ph.D. degree under the able guidance of our faculty. College has well equipped Central Instrumentation Laboratory with following sophisticated instruments -

- HPTLC
- FTIR – Fourier Transform IR Spectrophotometer
- UV-Visible Double Beam Spectrophotometer
- Cooling Centrifuge
- Digital Live Imaging Microscope, PCR

The presentation slide content is as follows:

Overview

The flowchart illustrates the structure of the presentation, starting with "Statistics" at the top, branching into "Descriptive" and "Inferential". "Descriptive" further branches into "Data Management", "Data Analysis", "Variable Creation", "Documenting Missing Data", "Summary of Central Tendency", "Range & Dispersion of Scores", "Tests", "Difference", and "Association". "Inferential" branches into "Probability", "Hypothesis Testing", and "Regression". "Probability" further branches into "Probability Distributions", "Probability Calculations", and "Probability Models". "Hypothesis Testing" branches into "Parametric Tests", "Non-parametric Tests", and "Bayesian Statistics". "Regression" branches into "Linear Regression", "Logistic Regression", and "Non-linear Regression".

The Zoom interface shows a list of participants on the right side, including Vishal Marathe (Me), Aniket Muley (Host), Pankaj Hingmire (Co-host), Akshay Chavan, Anand Mule, Anjali Royalawar, Arshiya Khan, Ashwini Sawant, Asma Juhee, BHAGYASHRI PINPRATWARI, Dinkar Satonkar, Dnyaneshwar Konkewad, and Dr. Kishor Gokwad.

THE COLLEGE...

Poojya Swami Ramanand Teerth established "Nanded Education Society" in 1950 for catalyzing educational revolution in backward region of this Marathwada. N.E.S. Science College, a single faculty college of Nanded Education Society is one of the premier institution imparting quality educations to the students of this region since last 67 years. Swamiji in his vision of society emphasized the incorporation of spirit of enlightened and responsible citizenship in youth, essential for secular democratic India. The college is always poised to offer emerging contemporary education to the learners to fulfill the need of society as well as to meet global challenges. This institution has been on the forefront in pursuit of academic excellence and has attended potential for excellence (CPE) status from UGC. The college is DST-FIST sponsored and recently awarded as BEST COLLEGE AWARD by Swami Ramanand Teerth Marathwada University, Nanded.

Objectives of NEP 2020

- To provide quality education to all regardless of their socio-economic status
- To acquaint with the opportunities and challenges in HEI's
- To make HEI's ready to implement the transformation in Education System
- To understand the role of education to train the students with skills and knowledge.
- To know the significance of Language, Arts and Culture
- To catalyze the need of quality research in HEI's.

About Department:

The department has adequate infrastructure with spacious laboratories, research laboratory, cum plant disease clinic. Department has well established Botanical garden, Medicinal Plant Garden and a Green House for maintenance of some endangered plants, museum enriched with many rare specimens.

Sixty four students of the department awarded Ph. D, more than 350 research papers published so far. Presently seven research guides supervising fifteen students for their Ph. D. degree. Tradition of Gold medals and merits from university is maintained every year. Significant number of major and minor research projects completed by the faculties of the department. Department runs a Post Graduate innovative program **"M.Sc. Herbal Medicine"** funded by UGC, New Delhi.

About Mycorrhiza:

A mycorrhiza is a mutual symbiotic association between a fungus and a plant. Mycorrhiza live in beneficial relationship i.e. symbiotic association between the plant root and fungus. These specialized fungi colonize plant roots and extend far into the soil in a mycorrhizal association, the fungus colonizes the host plant's root tissues. Mycorrhizal fungi improve nutrient uptake for plants, in part, by exploring the soil more efficiently than plant roots. Mycorrhizal fungal hyphae occupy large volumes of soil, extending far beyond the nutrient depletion zone that develops around roots. Mycorrhizae fungi occur naturally in soil but because of modern agricultural practices these are getting declined from the soil therefore to sustain soil fertility it must be introduced to the soil.

Mycorrhizae inoculants, available for sale in liquid and powder forms, are easy to use and effective. Mycolect biofertilizer is powder form of inoculum containing mycorrhizal spores prepared in our laboratory of department of Botany Science College. Manded in collaboration SRTMUN- RGSTC Mumbai. The product developed in our lab will be useful for overall sustainable growth of plants.

About College:

Pooja Swami RamnandTeerth established "Manded Education Society" in 1950 for catalyzing educational revolution in backward region of Marathwada. N.E.S. Science college is one of the premier institute of this region. It is single faculty college imparting quality education to the students of this region since last 67 years. The college is always ready to offer emerging contemporary education to the learners to fulfill the need of society as well as to meet global challenges. This institution has been on the forefront in pursuit of academic excellence. Reaccredited with 'A' grade by NAAC with GPA 3.38 and received college with potential for excellence (CPE) status from UGC. The college received DST-15T programme and recently awarded as Best College Award by Swami RamnandTeerth Marathwada University, Nanded.

Report of Workshop on Mycorrhizal Bio fertilizer for Farmers

One-day workshop sponsored by Swami Ramanand Teerth Marathwada University Nanded and Rajiv Gandhi Science and Technology Commission Mumbai for farmers was organized by Department of Botany, Microbiology and Biotechnology at N.E.S. Science College Nanded. The main purpose of workshop was to distribute the prepared mycorrhizal bio fertilizer to farmers and to give orientation about production of technique of similar type of bio fertilizer at their own farm without any cost or at low cost. Around 65 to 70 farmers have participated for the workshop. The programme was inaugurated by well-known mycorrhizal scientist and key note speaker Prof R. M. Mulani former Director School of Life Sciences, and Ex-Registrar Swami Ramanand Teerth Marathwada University, Nanded.

While giving key note address Prof R. M. Mulani told about the importance of mycorrhiza in sustainable agriculture. He has also given a brief orientation about production and large scale culturing of mycorrhizal bio fertilizer in the farm itself. The organizing secretary Dr. D. M. Jadhav has given information to farmers about the use of prepared mycorrhizal bio fertilizer under the SRTMUN-RGSTC sanctioned project. During workshop Principal and President of programme Prof. D. U. Gawai assured farmers about availability of college research laboratories and facilities to solve problems of farmers of this region. Head of Department Prof. B. D. Gachande also guided and appealed farmers to participate such programmes organized by the department in future. Dr. V. R. Marathe conducted the entire programme very nicely and Dr. P.G. Paul expressed vote of thanks. Other faculty members Dr. A. T. Shinde, Dr. Mrs. P.S. Borkar, Dr. V. B. Chavan, Mr. Sunil Darne, Mr. Sachin Shinde, Mr. Rukamaji More, Mr. Pankaj Hingmere, Project assistant Mr. Sandeep Kanshette, other departmental staff including Mr. B. K. Satare, Mr. Bhagwan Deshmukh have helped for successful conduction of workshop.

Feedback from farmers were taken, farmers have expressed their happiness about the organization of programme by the department, finally the workshop was concluded by serving lunch to all farmer participants.

ABSTRACT

Forest ecosystems are the regions where there is least human interference and therefore we see luxury of plant growth. Sitakhandi forest is one of the least human interfered forests present near Bhokar region of Nanded district in Maharashtra. Arbuscular mycorrhizal fungi (AM fungi) develops symbiotic relation with most of the land plants. This association is very common in the terrestrial ecosystem throughout the world. The objective of the current study is to identify and determine frequency of various AM fungal species. Five GPS marked sampling sites were selected for isolation of mycorrhizal spores. A total 34 species belonging to genera *Glomus*, *Acaulospora*, *Scutellospora*, *Gigaspora*, *Diversispora*, *Enterophora* and *Pascispora* were reported. Little variation is seen in their frequency. In this study, more species diversity among *Glomus* followed by *Acaulospora* were found. High frequency percentage of *Glomus mosseae* has been reported at all study sites.

Keywords: Mycorrhiza, *Glomus*, *Acaulospora*, Sitakhandi forest.

1. INTRODUCTION

Symbiotic Arbuscular Mycorrhizal Fungi (AM fungi) forms an extensive hyphal network for providing water and nutrients to living plants [1]. These symbionts are most commonly found in large majority of terrestrial plants [2]. The AM fungi belong to phylum Glomeromycota which forms main component of soil mycoflora. From the past three decades, this group of soil mycoflora have drawn the attention of researchers because of their ability to form intimate association with 70 to 90% of plant species [3]. In addition to nutrient uptake, this association is involved in protection against soil borne pathogens and improvement of soil fertility and stability. Their detection and studying diversity in soil is very essential for any agro-ecosystem [4]. Approximately, 150 AM fungi have been described by means of morphological characteristics of spores [5]. Because of their wide presence in soil, it is believed to contribute significantly to global phosphate and carbon cycle and influences primary productivity in terrestrial ecosystem [6]. Establishment of such mutualistic relationship can stimulate, activation of antioxidant, phenylpropanoid, and carotenoid pathways [7]. Synthesis of plant secondary metabolite which are important for increased plant

tolerance to abiotic and biotic stress are beneficial to human health through their antioxidant activity [8]. These obligate symbionts are not host specific and one species may found to be associated with various plants in the same locality [9] and also one host plant can support mixed population of AM fungal species [10].

Sitakhandi forest is about 39 km away from Nanded and Bhokar respectively. It is divided in to minor south and major north region by a middle road. The forest cover is approximately 7.0 km². It is dominated by plant like Teak (*Tectona grandis* L) and also consists of various types of herbs and grasses. The vegetation of forest comes under the category of dry deciduous type. Since this forest has thick plant cover therefore we observe least interference from human. Therefore, we have undertaken this study.

2. MATERIAL AND METHODS

2.1. Collection of Soil Samples

For the present work, rhizosporic soil samples were collected from Sitakhandi forest. Samples were collected in the month of June-21 from five different sites. The geographic locations of sites are shown in the Fig 1. Sampling sites are named as S-I (19° 14' 18" N and

77°35' 29°E); S-II (19° 14' 39° N and 77°35' 33°E); S-III (19° 14' 39° N and 77°35' 56°E); S-IV (19° 14' 03° N and 77°36' 03°E); S-V (19° 14' 09° N and 77°35' 43°E). The rhizosporic soil samples were collected from above mentioned locations in clean polythene bags and brought to laboratory for the isolation of mycorrhizal spores.

Fig. 1: Geographical locations of sampling sites from Sitakhandi forest

2.2. Isolation and identification of AM fungi

Mycorrhizal spores from soil samples were isolated by wet sieving and decantation technique as described by Gerdemann and Nicolson [11]. About 100 gm of individual air dried rhizosporic soil sample was suspended in a beaker containing 500 ml water and the suspension was left behind for about 15-20 minutes. The suspension was then decanted through series of sieve stacks of 500µm to 25µm arranged in decreasing order from top to bottom. Similar procedure was repeated for 2 to 3 times. The residue from each sieve was collected in separate dishes with little distilled water. The intact fungal spore was examined and counted using high power stereo zoom microscope. The spores were mounted on glass slide using polyvinyl alcohol, Lactic acid and Glycerol (PVLG). Identification of spore was done by observing diagnostic features like spore wall, colour, size and hyphal attachment [12]. The additional spore identification were done as per the description given in INVAM worksheet (<http://invam.caf.wvu.edu>) [13].

2.3. Frequency Determination of AM fungal Species

Frequency is used to assess the establishment and survivability of AM fungi in the rhizosporic soil. It shows the number of sampling in which spore of particular AM fungus present during the study period expressed as percentage [14]. In the present study, dominant AM

fungal species according to their frequency (F) were determined using following formula given by Yang, et. al. [15, 16] and Elizabeth Temitope, et.al. [17]. Percentage frequency(%F) = Number of times of certain AM species occurrence/Total number of AM fungal species occurred in the study × 100.

2.4. AMF Spore Quantification

Enumeration of AM fungal spore was done by modified grid line intersect method [18]. In this method, filter paper was divided in to many small compartments using ball point pen of approximately 1cm² and numbered separately. The total number of spores are counted in each segments by using high power Labomed make stereo zoom microscope [19].

3. RESULTS AND DISCUSSION

The identification of indigenous AM fungi is a fundamental requirement to understand biodiversity and essential for monitoring changes in natural, managed or disturbed ecosystems [9]. The significance of AM fungi in plant ecology is based on its widespread occurrence in natural ecosystem [20]. AM fungi have considerable impact on plant growth and therefore management of these fungi in terms of their isolation, mass cultivation for production of effective biofertilizer is essential for sustainable agriculture. In this regard, it is very much essential to study the AM fungal diversity with respect to dominance and their frequency of occurrence. This will be helpful to identify effective AM fungal species which occurs in diversified habitat. With this background, the attempt was made to study AM fungal diversity and to isolate frequently widespread occurring species from Sitakhandi forest area of Nanded. The results of study shows that AM fungal spores having 35 different fungal species belonging to seven different genera were reported. The diversified AM fungal genera reported are *Acaulospora*, *Diversispora*, *Entrophospora*, *Gigaspora*, *Glomus*, *Pascispora* and *Scutellospora*. Among all genera the maximum species diversity were recorded in *Glomus* followed by *Acaulospora*, *Diversispora*, *Scutellospora* and *Gigaspora*.

Species diversity and percentage frequency of *Glomus* species are shown in Fig.2. Fifteen different species of *Glomus* have been reported from all sample sites. The species of *Glomus* such as *Glomus aggregatum*, *G. ambisporum*, *G. clarum*, *G. constrictum*, *G. deserticola*, *G. fasciculatum*, *G. fecundisporum*, *G. flavisporum*, *G. halonatum*, *G. intradices*, *G. lacteum*, *G. macrocarpum*, *G. mosseae*, *G. panshalos*, *G. versiformae* were recorded. The additional spore identification were done as per the description given in INVAM worksheet (<http://invam.caf.wvu.edu>) [13].

2.3. Frequency Determination of AM fungal Species

Frequency is used to assess the establishment and survivability of AM fungi in the rhizosporic soil. It shows the number of sampling in which spore of particular AM fungus present during the study period expressed as percentage [14]. In the present study, dominant AM

fungal species according to their frequency (F) were determined using following formula given by Yang, et. al. [15, 16] and Elizabeth Temitope, et.al. [17].

Percentage frequency(%F) = Number of times of certain AM species occurrence/Total number of AM fungal species occurred in the study × 100.

2.4. AMF Spore Quantification

Enumeration of AM fungal spore was done by modified grid line intersect method [18]. In this method, filter paper was divided in to many small compartments using ball point pen of approximately 1cm² and numbered separately. The total number of spores are counted in each segments by using high power Labomed make stereo zoom microscope [19].

3. RESULTS AND DISCUSSION

The identification of indigenous AM fungi is a fundamental requirement to understand biodiversity and essential for monitoring changes in natural, managed or disturbed ecosystems [9]. The significance of AM fungi in plant ecology is based on its widespread occurrence in natural ecosystem [20]. AM fungi have considerable impact on plant growth and therefore management of these fungi in terms of their isolation, mass cultivation for production of effective biofertilizer is essential for sustainable agriculture. In this regard, it is very much essential to study the AM fungal diversity with respect to dominance and their frequency of occurrence. This will be helpful to identify effective AM fungal species which occurs in diversified habitat. With this background, the attempt was made to study AM fungal diversity and to isolate frequently widespread occurring species from Sitakhandi forest area of Nanded. The results of study shows that AM fungal spores having 35 different fungal species belonging to seven different genera were reported. The diversified AM fungal genera reported are *Acaulospora*, *Diversispora*, *Entrophospora*, *Gigaspora*, *Glomus*, *Pascispora* and *Scutellospora*. Among all genera the maximum species diversity were recorded in *Glomus* followed by *Acaulospora*, *Diversispora*, *Scutellospora* and *Gigaspora*.

Species diversity and percentage frequency of *Glomus* species are shown in Fig.2. Fifteen different species of *Glomus* have been reported from all sample sites. The species of *Glomus* such as *Glomus aggregatum*, *G. ambisporum*, *G. clarum*, *G. constrictum*, *G. deserticola*, *G. fasciculatum*, *G. fecundisporum*, *G. flavisporum*, *G. halonatum*, *G. intradices*, *G. lacteum*, *G. macrocarpum*, *G. mosseae*, *G. pansihalos*, *G. versiformae* were recorded. The

maximum frequency of occurrence of *G. mosseae* followed by *G. intradices*, *G. deserticola*, *G. constrictum*, *G. clarum*, *G. halonatum*, and *G. flavisporum* were observed from all the sites of forests. Khade and Rodrigues [21] found that forest species shows maximum colonization of *Glomus* species. These species are known to be widely distributed and are commonly found in different geographical locations. Similarly, Hindumati and Reddy [22] also reported abundance of *Glomus* in the field of Nizamabad and Karimnagar districts of Andhra Pradesh State.

Moreover, these species are easily adaptable to adjustment of sporulation patterns in variety of environmental conditions which may results in its dominance in occurrence [23]. In the present study, high frequency occurrence of *G. mosseae* in all the sampling sites shows its diversified nature of adaptability to different locations. Therefore, it is necessary to make detailed study on its isolation, further characterization and mass cultivation for benefits of sustainable agriculture.

Fig. 2: Percentage frequency occurrence of *Glomus* species at different locations of Sitakhandi forest.

Fig. 3: Percentage frequency occurrence of *Acaulospora* species at different locations of Sitakhandi forest

Species diversity in *Acaulospora* is shown in Fig. 3. In the present study followed by *Glomus*, *Acaulospora* showed twelve species at all five studied sites except *Acaulospora*

morrowiae at S-I. The different species of *Acaulospora* reported in the current study are *Acaulospora dilatata*, *A. nidulosa*, *A. foveata*, *A. kitinensis*, *A. koskei*, *A. lacunosa*, *A.*

laevis, *A. mellea*, *A. morrowiae*, *A. scrobiculata* and *A. tuberculata*. From all the studied sites, the frequency of *A. lacunose* was found higher followed by *A. mellea*, *A. laevis*, *A. dilatata* and *A. niclosonii*. *Acaulospora* and *Glomus* species sporulate profusely in shorter span of time due to their small size of their spores than *Gigaspora* and *Scutellospora* and therefore these two genera shows high adaptive values in different habitats [24]. Sporulation pattern among *Glomus* and *Acaulospora* is little different.

Glomus species sporulate first, while *Acaulospora* species do so later in seasonal period [25]. Earlier studies on *Glomus* and *Acaulospora* showed that their pattern of sporulation and colonization of many forest and cultivated plants enables them suitable for high adaptability in different habitats. In the present study all sites i.e. S-I, S-II, S-III, S-IV and S-V sites showed high abundance of both these genera.

Fig. 4: Percentage frequency occurrence of *Diversispora*, *Gigaspora*, *Scutellospora*, *Entrophospora* and *Pascispora* species at different locations of Sitakhandi forest.

The frequency percentage of *Diversispora*, *Entrophospora*, *Gigaspora*, *Pascispora* and *Scutellospora* is shown in Fig 4. From the figure, it is clear that *Diversispora globifera* and *D. epigaea* are present at all sampled sites of forest except S-III where later was not reported. *Gigaspora albida* and *G. margarita* are reported from all studied sites. Only 0.78% frequency of *G. margarita* was reported from S-V. Similarly, *Scutellospora biornata* was reported from all sites whereas *S. calospora* was absent from S-V. *Entrophospora infrequens* was found at all sites except S-II. Similarly, *Pascispora scintillans* was not found at S-IV. In this study, the frequency of occurrence of *Gigaspora* and *Scutellospora* were found little less as compared to *Glomus* and *Acaulospora*, this might be because the spores of these genera took longer time for formation and maturation [19]. The members of Gigasporiaceae typically establishes an extensive mycelium in the soil but produces less spores as compared to other members of Glomaceae and Acaulosporaceae [26, 27]. This might be one of the reasons in getting less frequency of these genera in the soil.

In this study AM fungi belonging to genus *Glomus* was found in more number with higher frequency. Therefore, it is one of the dominant genus reported in the forest soil of Sitakhandi region. Earlier studies made by Sharma et al [28], Byra Reddy et al. [29], Uniyal and Uniyal [30], Tamuli and Boruah [31], Mohan Kumar and Sivaswamy [32] in this regard supports the similar findings. The dominance of *Glomus* species in particular *G. mosseae*, has wider adaptability to different habitats and therefore, we have reported high frequency percentage in our study. Through scientific sets of experiments, this species of *Glomus* can be further explored for biofertilizer production.

4. CONCLUSION

The current study carried out on study of mycorrhizal fungi at Sitakhandi forest showed domination of *Glomus* followed by *Acaulospora* species. Maximum occurrence of both these species supports its wide adaptability to diversified habitats.

In order to commemorate the discovery of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman in the year 1930, the day is celebrated as National Science Day. For his great success in the field of science in India, Chandrasekhara Venkata Raman had been awarded and honored with the Nobel Prize in the Physics in the year 1930. To honor this event, 28th of February is observed as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC).

Inaugural program of "Science Exhibition" 2022-23

In the beginning of this year, Science Association was established to perform various activities from the students of Science College. On 28th February 2023 “Science Association” organized ‘Science Exhibition’ On 28th February 2023 (National Science Day) Science Exhibition inaugurated by the auspicious hand Shri.Shrikrushna Kokate, Superintendent of Police, Nanded. Convener of Science Association Dr. Kiran Shillewar Welcome address briefed the gathering about the objectives of celebrating National Science day. On this occasion, a motivational and inspirational talk was delivered by chief guest of program Dr. Venkatesh Kabde.

One Day Workshop on “Shevanti Cultivation and Conservation”

Brief report:

One day workshop on “Shevanti Cultivation and Conservation” was organized on 22nd August, 2022 at N. E. S. Science college, Nanded in collaboration with Amravati Garden Club, Amravati and Shri Shivaji Horticulture College, Amravati as a part of MoU signed.

Chrysanthemum is commonly known as Shevanti in Marathi language. It is the most cultivated garden plant after Rose. The main aim of this workshop was to create awareness about Chrysanthemum cultivation in the Nanded region. It also focuses on the types and varieties of various chrysanthemum.

Inaugural Function of the Workshop was started at 11.30 am. Program started with the floral tribute to Poojya Swami Ramanand Teerth. It was followed by the floral welcome of Guests. In the introductory speech Dr. Vishal Marathe, Organizing Secretary has briefly given idea about the concept of organization of program. He was focused on the importance of Shevanti cultivation and to create awareness among local peoples of Nanded region in gardening. Dr. D. U. Gawai, Principal, N. E. S. Science college, Nanded, in his speech he has given introduction of college and the facilities provided by the college for the students. He has also focused on how this workshop will be benefited for the students. The workshop was inaugurated by Dr. Shashank Deshmukh, Principal, Shri Shivaji Horticulture College, Amravati. In his speech, he has focused on importance and future of Shevanti cultivation. He has also talk on the work of Amravati Garden Club for the awareness in skillful gardening. He has motivated the students and gardener for the cultivation of Shevanti in their gardens and farms. This inaugural function was presided by CA Dr. Pravin Patil, Vice President, Nanded Education Society, Nanded. In his presidential address he has congratulate to the organizer for the organization of such workshop for the first time in Nanded region. Vote of Thanks of the Inaugural function was given by Dr. R. V. Sangvikar and Anchoring of the Program was doe by Dr. D. M. Jadhav.

First session of the workshop was started with the first lecture on “Shevanti Cultivation and Conservation” by Dr. Suchita khodke, Assistant Professor, Vinayak Vidhyan Mahavidyalaya, Nandgaon (Kh.) Dist. Amravati. She has given very nice and informative lecture on the various basic aspects regarding how to cultivate Shevanti, its types and how to conserve the germplasm etc.

PRINCIPAL
Science College, Nanded

Second lecture was organized on the topic “Shevanti Cultivation: Boon for Farmers” and it was given by Mrs. Shital Chitode,, Assistant Professor, Shri. Shivaji College of horticulture, Amravati. It was much beneficial for the farmers and the students who wants to cultivate Shevanti at commercial level.

Second session was started after the lunch. This session was totally devoted to Practical based study. Hands on training on Shevanti cultivation was given by Mr. Anil Bhone, Shevanti Trophy Winner, Amravati. In practical session actual cultivation of Chrysanthemum has been demonstrated. He has given all the basic details of the Shevanti cultivation with actual Practical sessions like Pot mixture, how to cultivate Shevanti, cutting, pruning, sticking and transfer of saplings etc.

Total 42 participants were present for the workshop, it was much more beneficial for the participants which includes students, teachers, garden lovers and farmers.

In last session all the queries were discussed with guests and they were satisfying all the doubts raised by participants. Participants has given very nice and positive feedback for the organization of workshop. The workshop was end with the vote of thanks by Dr. V. R. Marathe.

One Day Workshop On

“FISH RECIPES & FISH EXHIBITION”

Department of Fishery Science had arranged a very Innovative Workshop on “Fish Recipes and Fish Exhibition” on **1stDecember 2022**. In the Inauguration function of Workshop, the Head Department of Fishery Science Welcomed & felicitated to the Chief guests **Dr. VenkateshKabde, President N.E.S. Nanded, Shri. NaunilhalsinghJahagirdar, Principal Dr. D.U. Gawai.**

(Inaugural Function of “Fish Recipes& Fish Exhibition” Workshop)

In workshop students learned the selection and cooking of fish. This workshop was hands on and students enthusiastically involved to prepare different recipes. Organizing Secretary of workshop **Dr. K.S. Shillewar** delivered introductory speech & he explained the purpose of workshop. The HOD of Fishery Science **Dr. K. S. Shillewar** and Experts (Chef) demonstrated the various types of fish recipes, taught different cutting techniques of fish. They also told the important ingredient of fishes and benefits to treat different diseases, to improve our health. Further they explained how to choose different types of fishes, fish marketing, carving a fillet out of the whole fish and Preparation.

(Organizing Secretary of workshop Dr. K.S. Shillewar delivered introductory speech)

Students prepared and cooked accordingly the delicious fish dishes. During the workshop students enjoyed the taste of dishes that explore the students themselves. They also invited the staff members to taste the fish dishes.

(Fish recipes prepared By Students)

(Fish recipes prepared By Students)

Staff members of college tasted the fish curry, Fish fry fish dishes, along with chapatti, lemon, onion and salad. Fish cooking workshop was throughout the day and near about 72 students of B.Sc. II and III year of Science College and 35 Students from Gramin Polytechnic College, Nanded learned the skill of fish recipe.

(Explain the Fish Recipes by Students)

Department of Fishery Science, Science College, Nanded also organized Fish Exhibition on the occasion of 'World Fishery Day'.

(Chief guests Dr. Venkatesh Kabde, Observing fish Exhibition)

Students collected 22 Fishes from Different places of Nanded for fish exhibition.
