WORKING and APPLICATIONS of LATEX SOFTWARE

For the Academic Year 2023-2024

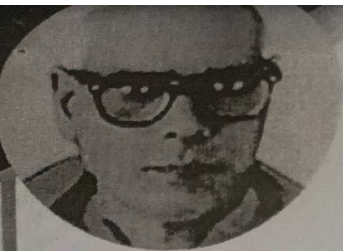

LaTeX is a typesetting engine. Unlike Word, which is controlled by mouse, various menus and buttons, LaTeX uses text commands to define the way your document is typeset. Following are some reasons, why one should seriously consider writing the scientific documents with LaTeX.

1. Beautifully typeset output.
2. Management of internal references and citations
3. Professional-looking documents
4. LaTeX is much faster
5. Edit images at any time.
6. Focus on the content.
7. Consistency through your document

In this contest, a Certificate Course entitled '**Working and Applications of Latex Software**' is designed by the Department of Mathematics and Applied Mathematics, NES Science College, Nanded from the academic Year 2022-23 and for the academic year 2023-2024, it was run during 21/12/2023 to 21/03/2024.

OBJECTIVES OF THE CERTIFICATE COURSE:

- To know about LaTeX software.
- To install LaTeX software.
- To impart hands on training in LaTeX software.
- To learn typesetting of research paper, thesis, books,
- To promote employment and entrepreneurship in typesetting using LaTeX software.
